Founded in 1968, Federally Employed Women (FEW) is a professional organization that works for the betterment of women in the Federal government. FEW has its headquarters in Washington, D. C. FEW works toward ending sex discrimination and sexual harassment in government service, increasing job opportunities for women and minorities, improving the merit system in government, and establishing and maintaining working relationships with Federal agencies to advocate the fair application of EEO and personnel laws, policies, practices and procedures.

There has never been a more important time for women employed by the Federal government, and those who care about them, to voice their opinions on issues that affect them in the workplace.

Rocky Mountain
Region

*Working for the advancement of
women in government.*

From the mountains to the prairies
we've got you covered!

About the Region

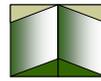

FEW is organized into eleven regions that provide a link to the national organization, sponsor training conferences and develop leaders. More than 200 chapters in the U. S. and overseas provide a network of monthly programs, meetings, training workshops and special projects, all tailored to the specific needs of chapter members.

The **Rocky Mountain Region** consists of six states: Colorado, Montana, North Dakota, South Dakota, Wyoming and Utah. The Region provides an exceptional opportunity to network with members from all agencies, professions and grade levels, including retired employees.

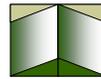

“FEW is a group of professional women who take pride in their careers. I’m always proud to say that I’m a member of FEW.”

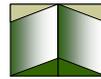

Chapters in the Region

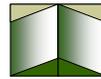

COLUMBINE CHAPTER is the southernmost chapter, located in **Colorado Springs, Colorado** and was established in **1976**. Members are eligible for financial scholarships to National and Regional FEW sponsored training programs. They support the local community-based women’s organizations with donations of money, gifts and clothing. They also provide self development and training opportunities for women and men interested in advancing their careers.

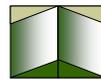

DENVER FEDERAL CENTER CHAPTER, established in **2006**, draws members from the federal community in the **Denver Federal Center** area. The chapter meets bi-monthly during the lunch hour. It’s goals are to provide a forum of FEW mission-related activities and an environment for women in government to develop connections and networks to achieve career success.

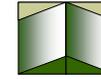

DOWNTOWN DENVER CHAPTER, established in **2004**, draws members from the federal community in the **downtown** area. The chapter’s goals are not only to provide training and self development opportunities, but to provide a forum for networking and sharing job opportunities within the various Federal agencies located in the Denver area.

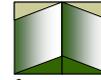

HIGH PLAINS CHAPTER, established in **1992** as a gateway to the Rocky Mountain Region for FEW in the **east Denver area**, is committed to providing its members with answers to personal training issues in a setting that promotes social interaction of professional men and women. Programs focus on a variety of topics, such as goal setting, developing workplace skills and developing life skills.

ROCKY MOUNTAIN CHAPTER was chartered in April **1971**. This Chapter is located in the **northern Colorado area** and draws its members from the federal community along the Front Range. The Chapter is committed to FEW’s organizational goals and self-development opportunities that promote the interaction skills required in our ever-changing workforce of professional men and women. The chapter also provides a forum for networking and seeking employment opportunities within the various local Federal agencies.

WASATCH CHAPTER established in **1976** in **Salt Lake City, Utah**, provides the following opportunities for members: programs on FEW’s goals and objectives, current local and national issues, health and personal enrichment; networking to build support groups; personal and professional growth opportunities; and participation in various community projects.

OTHER LOCATIONS If you and 14 others are interested, you can form a new FEW Chapter in a location convenient for you. Please contact the Regional Manager named on the back of this brochure. We can get you started and support you each step of the way.

FEW would like to see Chapters in every state, and the Rocky Mountain Region is looking forward to re-establishing a Chapter in Wyoming, and establishing chapters in Montana, North Dakota and South Dakota.

Regional Highlights

- **Regional Training Program:** Held each spring in cities around the region, the RTP features speakers and workshops on topics important to Federal employees.
- **Regional Awards:** Each chapter competes in such categories as best newsletter, best fundraiser, best legislative activities, best programs, and others. There is also a SHERo award offered for all eligible Federal employees. Find out more! <http://www.rockymountainfew.org/>
- **Networking:** The Region brings together members in an environment that encourages open discussion on topics important to women and the opportunity to meet new people.

THE ROCKY MOUNTAIN REGION IS AN IMPORTANT LINK BETWEEN THE NATIONAL ORGANIZATION AND THE MEMBERS.
